

Lights ON--

Crime Off

Send a message to thieves!

CREEKSIDE IS FIGHTING CRIME!

Keep your outside LIGHTS ON to illuminate your cars. Preferably cars are parked in your garage and driveways rather than the street.

Motion detectors are effective tools to not only reduce crime but also to save energy. Dusk/dawn sensors turn lights on and off by detecting the amount of available sunlight—another energy saver.

Check your outside lights to ensure proper working order.

Use sufficient wattage to be effective to brighten your vehicles, walkways, and windows.

Please report any non-working street light. <http://www.oncorgroup.com/community/streetlights/form.aspx> OR 1.888.313.4747. For further information, contact Creekside CrimeWatch Coordinator, Aaron Yarbough@yahoo.com www.CreeksideNorthHOA.org

Creekside Community Garden

Small area in our subdivision to grow vegetables for our residents. All residents can garden in this communal area for shared work and shared produce. It is never too late. Local gardens produce vegetables all year round. Ideas?

*Interested? Can volunteer an area to use--Email
